

Publications Reissue Highlights

Manual: *BASE24-atm Diebold 10XX/478X SSB Manual*

Number: AT-DA152-01

Date: Dec-2009

Software: Release 6.0, version 10

The following table highlights the major changes that have been made in the most recent update to the *BASE24-atm Diebold 10XX/478X SSB Manual*. The first column of the table lists the sections and appendixes in which major changes have been made. The second column of the table describes the major changes for each section or appendix. These changes update the manual to release 6.0, version 10.

Section/ Appendix	Major Changes
1	Adds the topic “Wincor-Nixdorf Hardware Options” that describes the Shared BNA and CPM hardware modules. Adds Enhanced Note Acceptor (ENA) information to the description of the Bulk Note Acceptor (BNA). BASE24-atm now supports Diebold’s ENA in the same manner it supports BNA.
2	Adds Enhanced Note Acceptor (ENA) information to the description of the Bulk Note Acceptor (BNA). BASE24-atm now supports Diebold’s ENA in the same manner it supports BNA. Adds information about load group 812 that is used with the ENA module.
A	Adds notes that CPM deposits are recognized as regular deposits, because they have the same transaction code (20 or 24).
