

Publications Reissue Highlights

Manual: *BASE24-pos EMV Support Manual*

Number: PS-CC986-01

Date: Dec-2009

Software: Release 6.0, version 10

The following table highlights the major changes that have been made in the most recent update to the *BASE24-pos EMV Support Manual*. The first column of the table lists the sections and appendixes in which major changes have been made. The second column of the table describes the major changes for each section or appendix. These changes update the manual to release 6.0, version 10.

Section/ Appendix	Major Changes
2	Updates the CHECK METHOD field on CPF screen 11 for additional values.
6	Adds a description of enhanced EMV response code mapping and a reference to the <i>BASE24 External Message Manual</i> .
B	Updates all APACS 30/40 references to APACS 70 to match updates made to the APACS Device Handler in BASE24 6.0v7. The naming convention used for field 29 in the APACS request message and field 18 in the APACS response message also changed.
