

Publications Reissue Highlights

Manual: *BASE24 Remote Banking End-of-Period Processing and Reporting Manual*

Number: TB-AE000-06

Version: 2

Date: 07/2000

The following table highlights the major changes that have been made to the *BASE24 Remote Banking End-of-Period Processing and Reporting Manual* in this version. This version updates the manual from product release 1.1 to release 1.3. The first column of the table lists the sections and appendixes in which major changes have been made. The second column of the table describes the major changes for each section or appendix.

Section/ Appendix	Major Changes
All	Changes NET24 to BASE24 in all references to Integrated Transaction Services (ITS) manuals. Corrects manual names for references to NET24-XPNET manuals. Removes the word “terminal” from “Customer Service Representative terminal” throughout when discussing the source of a transaction.
1	Adds a new subsection explaining the various BASE24 Remote Banking product offerings. Adds the following five BASE24-billpay transactions, which have been added since the manual was last published: • Customer account activate (B6) • Customer account deactivate (B7) • Customer account delete (B8) • Customer vendor activate (BD) • Customer vendor mask verify inquiry (BE) Adds Enhanced Telebanking to the operations tasks tables. Clarifies which BASE24-billpay transactions are automatically logged to the ITS Transaction Log File (ITLF).
2	Corrects the processing performed by the End-of-Period process when the logical network cutover lead timer expires.

Section/ Appendix	Major Changes
3	Adds Cleanup program information and procedures for cleanup of the Report Action Table (RPTA).
5	Adds descriptions of the Remittance Transaction Alert Report and the Scheduled Transactions Alert Report.
6	Adds procedures for generating the Remittance Transaction Alert Report and the Scheduled Transactions Alert Report. Adds procedures for regenerating reports. Adds procedures for cleanup of the Report Action Table (RPTA).
