

Publications Reissue Highlights

Manual: *BASE24 Transaction Security Manual*

Number: BA-AE000-13

Date: Dec-2005

Software: Release 6.0, Version 6

The following table highlights the major changes that have been made in the most recent update to the *BASE24 Transaction Security Manual*. The first column of the table lists the sections and appendixes in which major changes have been made. The second column of the table describes the major changes for each section or appendix. These changes update the manual to release 6.0, version 6.

Section/ Appendix	Major Changes
1	Adds the NBGC Interchange Interface process to the list of Interchange Interface processes that support the translation of PIN blocks from triple DES to single DES, and vice versa. Clarifies the description of session key derivation for EMV 2000 processing. Adds Bull and Eracom security devices supported by BASE24.
2	Updates the KSN Validation topic for the POS-DH-KSN-SAV-OPT param in the LCONF.
3	Adds the NBGC Interchange Interface process to the list of Interchange Interface processes that support partial triple DES.
4	Adds a description of the POS-DH-KSN-SAV-OPT LCONF param. This param provides an option for restoring the KSN from the previous transaction in the device-dependent area of the BASE24-pos Terminal Data files (PTD) for an out-of-sequence condition. This param is used with the DUKPT PIN encryption method for the ACI Standard POS Device Handler (SPDH) module.
13	Adds the CVD PROCESSING FLAG and DENY MANUAL CARD ENTRY fields to CPF screen 8 and updates the manual card verification processing steps accordingly.
14	Updates the entire section for hardware security module verification of the MasterCard Accountholder Authentication Value (AAV) in a purchase, preauthorization request, or preauthorization completion transaction.

Section/ Appendix	Major Changes
17	Updates the description of authorization request cryptogram verification to include EMV 2000 processing and possible card verification processing.
B	Updates the example A10KWARM OBEY file with an updated example and comments received from Atalla.
